LETTER OF RECOMMENDATION

I have been the immediate supervisor of **Akhil Arora** during his **ML Research Internship** at **Simplified Europe**.

From what I have observed is that the applicant has remarkable authoritative abilities. He can effectively outdo various assignments with positive outcomes. His credentials, skills, and achievements, are not just something written on papers. With his professionalism and hard work, he proves them to be correct. In the event that your internship program is looking for unrivaled applicants with a record of accomplishment, he is a brilliant decision. He has shown a capacity to meet people's high expectations.

During the time of internship, we found him to be a skilled individual with the innate ability to apply learned theoretical knowledge into practice. He is enthusiastic and reliable in completing the assigned work. He is very dedicated to succeed in achieving all assigned project goals. As an individual or a colleague, he is easy to communicate with. Hence, I encourage you to consider my recommendation for him.

If you need more information about him, please do not hesitate to contact me at simplifiedeurope@gmail.com

Goodluck!
